FUND SUMMARY

Investment Objective: The Fund seeks to provide income consistent with liquidity, and limited credit and interest rate risk.

Fees and Expenses of the Fund: The following table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)	
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	None
Maximum Deferred Sales Charge (Load) (as a % of original purchase price)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None
Redemption Fee (as a % of amount redeemed on shares held less than 30 days)	0.25%
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.45%
Distribution and/or Service (12b-1) Fees	0.10%
Other Expenses	<u>0.14%</u>
Total Annual Fund Operating Expenses	0.69%
Fee Waiver and Reimbursement ⁽¹⁾	<u>(0.04)%</u>
Total Annual Fund Operating Expenses After Fee Waiver and Reimbursement	0.65%

(1) The Fund's adviser has contractually agreed to reduce fees and absorb expenses of the Fund until at least April 30, 2019, if necessary to ensure that the Total Annual Fund Operating Expenses after fee waiver and/or reimbursement (exclusive of any front-end or contingent deferred loads; brokerage fees and commissions, acquired fund fees and expenses; fees and expenses associated with instruments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses); borrowing costs (such as interest and dividend expense on securities sold short); taxes; and extraordinary expenses, such as litigation expenses (which may include indemnification of Trust officers and Trustees and contractual indemnification of Fund service providers (other than the adviser)) do not exceed 0.65%. This agreement may be terminated only by the Trust's Board of Trustees on 60 days' written notice to the adviser.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$66	\$217	\$380	\$855

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 133% of the average value of its portfolio.

Principal Investment Strategies: The Fund limits its investments and strategy so as to qualify for investment by state and nationally chartered banks, federal savings institutions, and federal credit unions under current applicable federal regulations.

The Fund invests 100% of its assets in liquid, high-quality fixed and variable rate U.S. Government bonds, cash and cash equivalents. Under current federal banking regulations, these U.S. Government bonds would receive a risk weighting of 0% to 20% for the purpose of calculating risk-based capital requirements. The Fund intends that a bank's investment in the Fund would receive a 20% risk weighting for the purpose of this calculation.

The Fund defines U.S. Government bonds as (i) United States Treasury bills, notes, and bonds, (ii) obligations of Government Sponsored Entities (“GSEs”) such as the Government National Mortgage Association (“GNMA”), the Federal Home Loan Mortgage Corporation (“FHLMC”), the Federal National Mortgage Association (“FNMA”), and the Federal Home Loan Bank System (“FHLB”) and (iii) mortgage-backed securities (“MBS”) and collateralized mortgage obligations (“CMOs”) that are issued by and backed by mortgage collateral guaranteed by one or more of the aforementioned GSEs.

The Fund seeks to maintain limited credit risk by restricting its investments to those rated Aaa by Moody’s Investors Service (“Moody’s”) or AAA by Standard and Poor’s Rating Group (“S&P”). In no event will the Fund purchase “whole loans,” “whole loan CMOs,” or non-GSE guaranteed corporate bonds or instruments.

The Fund seeks to maintain limited interest rate risk by typically maintaining average portfolio-level duration within +/-0.5 years of the Fund’s benchmark. Over the past 10 years ended March 31, 2018, the benchmark index has maintained a duration within a range of 0.86 and 3.03. Duration is a measure of sensitivity of a security’s price to changes in interest rates. However, individual securities are purchased without restriction as to maturity or duration. The benchmark is comprised of a 50/50 combination of the Barclays Capital Short Treasury Index (which is composed of United States Treasury securities with a remaining maturity of 1 to 12 months) and the Barclays Capital MBS Index (which is composed of adjustable and fixed-rate MBS issued by GNMA, FNMA and FHLMC).

The Fund’s adviser delegates day-to-day execution of the Fund’s strategy to a subadviser. The adviser retains the ability to override the subadviser’s allocation of assets and its selection of specific securities if it believes an investment or allocation is not consistent with the Fund’s investment guidelines. The adviser is responsible for ongoing performance evaluation and monitoring of the subadviser. The subadviser buys securities to meet the Fund’s income goal and sells securities to adjust duration or to purchase other securities that the subadviser believes may perform better. The subadviser may engage in frequent trading of securities in managing the fund’s portfolio.

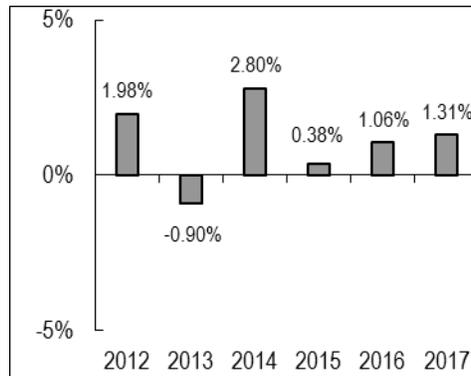

Principal Investment Risks: *As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. Many factors affect the Fund’s net asset value and performance. Shares of the Fund are not deposits or obligations of any bank, are not guaranteed by any bank, and are not insured by the FDIC or any other government agency.*

- **Credit Risk:** U.S. Government agencies and instrumentalities may not make interest and principal payments on securities held by the Fund, resulting in losses to the Fund. In addition, the credit quality of securities held by the Fund may be lowered if an issuer’s financial condition changes. Lower credit quality may lead to greater volatility in the price of a security and lower liquidity making it difficult for the Fund to sell the security.
- **Fixed Income and Interest Rate Risk:** Changes in interest rates will affect the value of investments in fixed income securities. Typically the value of fixed income securities decline when interest rates rise.
- **Liquidity Risk:** Some securities may have few market-makers and low trading volume, which tends to increase transaction costs and may make it difficult for the Fund to dispose of a security at all or at a price that represents current or fair market value.
- **Management Risk:** The subadviser’s judgments about the attractiveness, value and potential appreciation of particular security in which the Fund invests may prove to be incorrect and may not produce the desired results. Additionally, the adviser’s judgments about the potential performance of the subadviser may also prove incorrect and may not produce the desired results.
- **Market Risk:** Overall fixed income market risks may affect the value of individual securities in which the Fund invests. Factors such as interest rate levels, economic growth, market conditions, government policy and political events affect the fixed income securities markets. When the value of the Fund’s investments goes down, your investment in the Fund decreases in value and you could lose money.
- **Mortgage-Backed Securities Risk:** Mortgage-backed securities are susceptible to maturity and yield risk because borrowers in pools of securities held by the Fund are able to prepay principal due on these mortgages, particularly during periods of declining interest rates.
- **Turnover Risk:** A higher portfolio turnover will result in higher transactional and brokerage costs. A high portfolio turnover rate can potentially increase taxes, which can negatively impact Fund performance.

Performance

The following bar chart and table below provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing how the Fund's average annual returns compare with those of a broad-based securities market index and supplemental index. Past performance does not necessarily indicate how a Fund will perform in the future. Updated performance information will be available at no cost by visiting www.TransWesternFunds.com or by calling (855) 881-2380.

Performance Bar Chart For Calendar Years Ended December 31

Best Quarter:	2 nd Quarter 2014	0.99%
Worst Quarter:	2 nd Quarter 2013	(1.10)%

Performance Table
Average Annual Total Returns
 (For periods ended December 31, 2017)

	One Year	Five Year	Life of Fund (inception 1/3/11)
Return before taxes	1.31%	0.92%	1.36%
Return after taxes on distributions	0.42%	0.14%	0.62%
Return after taxes on distributions and Sale of Fund Shares	0.74%	0.35%	0.73%
Bloomberg Barclays Capital Short Treasury Index (reflects no deduction for fees, expenses or taxes)	0.81%	0.34%	0.30%
Bloomberg Barclays Capital Mortgage Backed Securities Index (reflects no deduction for fees, expenses or taxes)	2.47%	2.04%	2.72%

The Bloomberg Barclays Capital Short Treasury Index measures the performance of United States Treasury Securities with a remaining maturity between 1 to 12 months. The index is unmanaged and its results do not reflect the effect of sales charges, commissions, account fees, expenses or taxes. Investors cannot invest directly in an index. Unlike the Fund's returns, however, they do not reflect any fees or expenses.

The Bloomberg Barclays Capital Mortgage Backed Securities Index is an unmanaged market capitalization index which measures the performance of investment grade fixed-rate mortgage-backed pass through securities of Government National Mortgage Association ("GNMA"), Federal National Mortgage Association ("FNMA") and Federal Home Loan Mortgage Corp. ("FHLMC"). Investors may not invest in the Index directly. Unlike the Fund's returns, however, they do not reflect any fees or expenses.

After-tax returns were calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold shares of the Fund through tax-deferred arrangements, such as 401(k) plans or Individual Retirement Accounts (IRAs).

Investment Adviser: TransWestern Capital Advisors, LLC.

Subadviser: Loomis, Sayles & Company, L.P.

Subadviser Portfolio Managers: Clifton Rowe, CFA, Kurt Wagner, CFA, CIC, and Christopher T. Harms are each a Vice President of the subadviser. Mr. Rowe has served as portfolio manager of the Fund since it commenced operations in 2011. Mr. Wagner has served as portfolio manager of the Fund since 2012. Mr. Harms has served as portfolio manager of the Fund since 2012.

Purchase and Sale of Fund Shares: The minimum initial investment in the Fund is \$2,000,000 and the minimum subsequent investment is \$500,000. You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open. Redemptions requests may be made by telephone and will be paid by wire transfer.

Tax Information: Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-free plan.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective

The Fund seeks to provide income consistent with liquidity, and limited credit and interest rate risk. The Fund's investment objective and its 100% investment policy with respect to U.S. Government bonds and cash are each a fundamental policy and each may not be changed without shareholder approval. Fundamental policies may only be changed by the affirmative vote of a majority of the outstanding voting securities (shares) of the Fund. For the purposes of this Prospectus, "majority of the outstanding voting securities of the Fund" means the vote, at an annual or special meeting of shareholders, duly called, (a) of 67% or more of the shares present at such meeting, if the holders of more than 50% of the outstanding shares are present or represented by proxy; or (b) of more than 50% of the outstanding shares, whichever is less.

Principal Investment Strategies

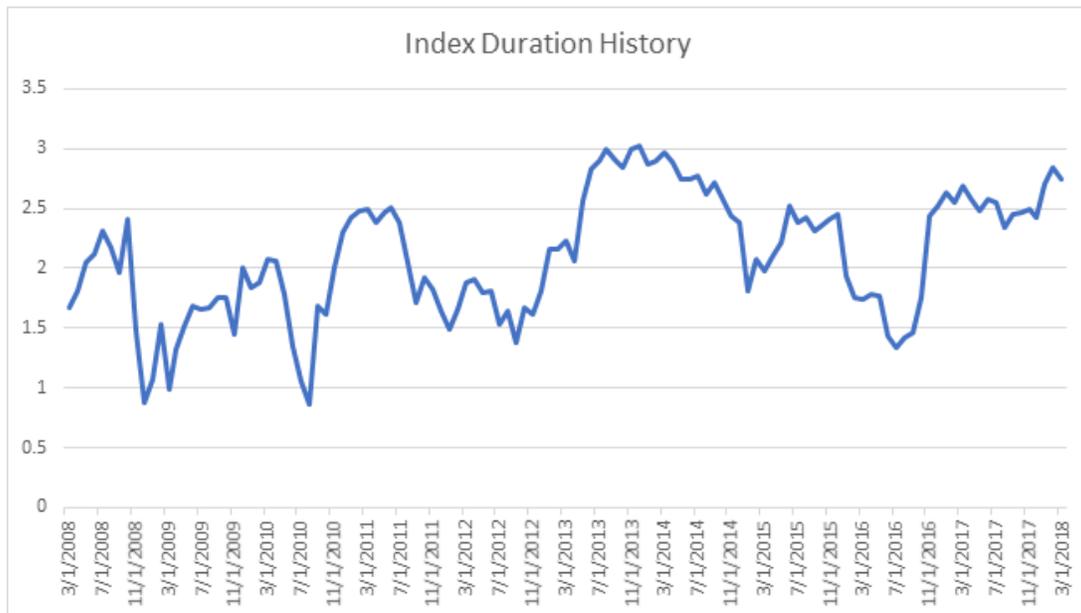

The Fund limits its investments and strategy so as to qualify for investment by state and nationally chartered banks, federal savings institutions, and federal credit unions under current applicable federal regulations.

The Fund invests 100% of its assets in liquid, high-quality fixed and variable rate U.S. Government bonds, cash and cash equivalents. Under current federal banking regulations, these U.S. Government bonds would receive a risk weighting of 0% to 20% for the purpose of calculating risk-based capital requirements. The Fund intends that a bank's investment in the Fund would receive a 20% risk weighting for the purposes of this calculation under current and announced FDIC rules.

The Fund defines U.S. Government bonds as (i) United States Treasury bills, notes, and bonds, (ii) obligations of Government Sponsored Entities ("GSEs") such as the Government National Mortgage Association ("GNMA"), the Federal Home Loan Mortgage Corporation ("FHLMC"), the Federal National Mortgage Association ("FNMA"), and the Federal Home Loan Bank System ("FHLB") and (iii) mortgage-backed securities ("MBS") and collateralized mortgage obligations ("CMOs") that are issued by and backed by mortgage collateral guaranteed by one or more of the aforementioned GSEs.

The Fund seeks to maintain limited credit risk by restricting its investments to those rated Aaa by Moody's Investors Service ("Moody's") or AAA by Standard and Poor's Rating Group ("S&P"). In no event will the Fund purchase "whole loans," "whole loan CMOs," or non-GSE guaranteed corporate bonds or instruments.

The Fund seeks to maintain limited interest rate risk by typically maintaining average portfolio-level duration within +/- .5 years of the benchmark. Over the past 10 years ended March 31, 2018, the benchmark index has maintained a duration within a range of 0.86 and 3.03 (see chart below). Duration is a measure of the sensitivity of a security's price to changes in interest rates. However, individual securities are purchased without restriction as to maturity or duration. The benchmark is comprised of a 50/50 combination of the Barclays Capital Short Treasury Index (which is composed of United States Treasury securities with a remaining maturity of 1 to 12 months) and the Barclays Capital MBS Index (which is composed of adjustable and fixed-rate MBS issued by GNMA, FNMA and FHLMC).

The Fund's adviser delegates day-to-day execution of the Fund's strategy to a subadviser. The adviser retains the ability to override the subadviser's allocation of assets and its selection of specific securities if it believes an investment or allocation is not consistent with the Fund's investment guidelines. The adviser is responsible for ongoing performance evaluation and monitoring of the subadviser. The sub-adviser may engage in frequent trading of securities in managing the Fund's portfolio.

Subadviser's Security Selection Process

The subadviser focuses on meeting the Fund's interest income goal while maintaining liquidity and limiting credit and interest rate risk by considering the influence of overall economic conditions on interest rates and by selecting individual bonds that it believes will enhance the Fund's income. In selecting investments for the Fund, the subadviser's research analysts work closely with the Fund's portfolio managers to develop an outlook on the economy from research generated internally, and from that produced by various other financial firms and specific forecasting services, and from economic data released by the U.S. and foreign governments as well as the Federal Reserve Bank. The analysts also conduct a thorough review of individual securities to identify what they consider attractive values in the U.S. government security marketplace through the use of quantitative tools such as internal and external systems and software. The subadviser seeks to balance opportunities for yield and price performance by combining macroeconomic analysis with individual security selection. The subadviser seeks to increase the opportunity for higher income while maintaining the greater price stability that shorter duration portfolios exhibit relative to long duration fixed income securities and portfolios.

The subadviser buys securities to meet the Fund's income goal and sells securities to adjust duration or to purchase other securities that the subadviser believes may perform better.

Principal Investment Risks

Shares of the Fund are not deposits or obligations of any bank, are not guaranteed by any bank, and are not insured by the FDIC or any other government agency.

- ***Credit Risk.*** There is a risk that issuers will not make payments on securities held by the Fund, resulting in losses to the Fund. In addition, the credit quality of securities held by the Fund may be lowered if an issuer's financial condition changes. Lower credit quality may lead to greater volatility in the price of a security and in shares of the Fund. Lower credit quality also may affect liquidity and make it difficult for the Fund to sell the security. Default, or the market's perception that an issuer is likely to default, could reduce the value and liquidity of securities held by the Fund, thereby reducing the value of your investment in Fund shares. In addition, default may cause the Fund to incur expenses in seeking recovery of principal or interest on its portfolio holdings.
- ***Fixed Income and Interest Rate Risk.*** When the Fund invests in fixed income securities, the value of your investment in the Fund will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of the fixed income securities owned by the Fund. In general, the market price of debt securities with longer maturities will increase or decrease more in response to changes in interest rates than shorter-term securities. Any U.S. Federal Reserve System revisions to its current policy of maintaining the federal funds rate at a low level and purchasing large quantities of securities issued or guaranteed by the U.S. government, its agencies or instrumentalities on the open market to support U.S. economic recovery will have uncertain impacts on U.S. interest rates and fixed income market volatility.
 - ***Changing Fixed Income Market Conditions Risk.*** When the Fund invests in fixed income securities, the value of your investment in the Fund will decline if interest rates rise. During periods of sustained rising rates, fixed income risks will be amplified. If the U.S. Federal Reserve's Federal Open Market Committee ("FOMC") continues to reduce its purchases of large quantities of U.S. government and agency securities on the open market to support the economic recovery, or if the FOMC raises the federal funds interest rate target, interest rates across the U.S. financial system may rise. However, the magnitude of rate changes across maturities and borrower sectors is uncertain.

Rising rates tend to decrease liquidity, increase trading costs, and increase volatility, all of which make portfolio management more difficult and costly to the Fund and its shareholders. Additionally, default risk increases when issuers borrow at higher rates.

- ***Liquidity Risk.*** Liquidity risk is the risk that a security cannot be sold quickly at or very close to its market value. The Fund's ability to sell a position in a security prior to maturity depends, in part, on the existence of a liquid secondary market for such a security. Some securities may have few market-makers and low trading volume, which tends to increase transaction costs and may make it difficult for the Fund to dispose of a security at all or at a price that represents current or fair market value.

- **Management Risk.** The subadviser's judgments about the attractiveness, value and potential appreciation of particular asset classes and securities in which the Fund invests may prove to be incorrect and may not produce the desired results. Additionally, the adviser's judgments about the potential performance of the subadviser may also prove incorrect and may not produce the desired results. Mutual funds and their advisers are subject to restrictions and limitations imposed by the Investment Company Act of 1940, as amended, and the Internal Revenue Code that do not apply to the adviser's or subadviser's management of individual and institutional accounts.
- **Market Risk.** The net asset value of the Fund will fluctuate based on changes in the value of the securities in which the Fund invests. The Fund invests in securities that may be more volatile and carry more risk than some other forms of investment. Security prices, in general, may decline over short or even extended periods of time. Market prices of securities and broad market segments may be adversely affected by a prominent issuer having experienced losses or by the lack of earnings or such an issuer's failure to meet the market's expectations with respect to new products or services, or even by factors wholly unrelated to the value or condition of the issuer, such as changes in economic growth, interest rates, government policy and political events.
- **Mortgage-Backed Securities Risk.** Mortgage-backed securities are subject to maturity risk because the individual mortgage loan borrowers are able to prepay principal, which is passed through to MBS investors. Consequently, MBS are subject to both "prepayment risk" and "extension risk." Prepayment risk is the risk that, when interest rates fall, certain types of obligations will be paid off by the obligor more quickly than originally anticipated and the Fund may have to invest the prepaid proceeds in securities with lower yields. Extension risk is the risk that, when interest rates rise, certain obligations will be paid off by the obligor more slowly than anticipated causing the value of these securities to fall. Even small movements in interest rates (both increases and decreases) may quickly and significantly reduce the value of certain mortgage-backed securities. Securities subject to prepayment risk generally offer less potential for gains when interest rates decline, and may offer a greater potential for loss when interest rates rise. Prepayment risk as well as the risk that the structure of certain MBS may make their reaction to interest rates and other factors difficult to predict, make their prices volatile.

Portfolio Holdings Disclosure: A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information. Shareholders may request portfolio holdings schedules at no charge by calling (855) 881-2380.

Cybersecurity: The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate their Net asset value ("NAV"); impediments to trading; the inability of the Fund, the Adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

Investment Adviser: The Fund's investment adviser is de Koning and Company, LLC, doing business as TransWestern Capital Advisors, LLC. The adviser is located at 155 S. Madison Street, Suite 210, Denver, CO 80209. The adviser serves institutional investors such as banks and investment companies. Subject to the supervision of the Trust's Board of Trustees, the adviser is responsible for managing the Fund's investments, including through the subadviser. The adviser is responsible for selecting and supervising the Fund's subadviser and assuring that investments are made according to the Fund's investment objectives, policies, and restrictions, and providing related administrative services and facilities under an investment advisory agreement between the Trust, with respect to the Fund, and the adviser.

Pursuant to an investment advisory agreement, the Fund pays the adviser, on a monthly basis, an annual advisory fee equivalent to 0.45% of the Fund's average daily net assets. In addition to investment advisory fees, the Fund pays other expenses including costs incurred in connection with the maintenance of its securities law registration, printing and mailing prospectuses and Statements of Additional Information to shareholders, certain financial accounting services, taxes or governmental fees, custodial, transfer and shareholder servicing agent costs, expenses of outside counsel and independent accountants, preparation of shareholder reports and expenses of trustee and shareholders meetings. For the fiscal year ended December 31, 2017, the Fund paid investment advisory fees to the adviser at an annual rate of 0.41% of the average daily net assets of the Fund.

The adviser has contractually agreed to reduce its fees and to reimburse expenses, if necessary, at least until April 30, 2019, to ensure that total annual fund operating expenses after fee waiver and/or reimbursement (exclusive of any front-end or contingent deferred loads; brokerage fees and commissions; acquired fund fees and expenses; fees and expenses associated with instruments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses); borrowing costs (such as interest and dividend expense on securities sold short); taxes; and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees and contractual indemnification of Fund service providers (other than the adviser)) will not exceed 0.65% of average daily net assets (the "Expense Limitation Agreement"). Fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three year basis (within the three years after the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits. A discussion regarding the basis for the Board of Trustees' and most recent approval of the investment advisory agreement is available in the Fund's annual shareholder report dated December 31, 2017.

Subadviser: Loomis, Sayles & Company, L.P. ("Loomis Sayles"), located at One Financial Center, Boston, MA 02111, serves as subadviser to the Fund. Subject to the authority of the Board of Trustees and oversight by the adviser, the subadviser is responsible for day-to-day execution of the Fund's strategy and management of the Fund's investment portfolio according to the Fund's investment objective, policies and restrictions. The subadviser is paid by the adviser, not the Fund. The subadviser advises institutional investors, such as investment companies and pension plans. A discussion regarding the basis for the Board of Trustees' approval of the subadviser and the subadvisory agreement is available in the Fund's annual shareholder report dated December 31, 2017.

Portfolio Managers

Christopher Harms. Mr. Harms, Vice President of Loomis Sayles joined Loomis Sayles in 2010. Mr. Harms received a BSBA from Villanova University and an MBA from Drexel University. He began his investment career in 1981.

Clifton Rowe, CFA. Mr. Rowe, Vice President of Loomis Sayles, began his investment career in 1992 when he joined Loomis Sayles. Prior to becoming a portfolio manager, he served as a trader from 1999 until 2001. He holds the designation of Chartered Financial Analyst. Mr. Rowe received a B.B.A. from James Madison University, an MBA from the University of Chicago and has over 17 years of investment experience.

Kurt Wagner, CFA, CIC. Mr. Wagner, Vice President of Loomis Sayles joined Loomis Sayles in 1994. Mr. Wagner received a B.A. from Haverford College and an M.B.A. from the University of Chicago. He has over 33 years of investment experience.

The Statement of Additional Information provides additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of securities in the Fund.

HOW SHARES ARE PRICED

The NAV and offering price (NAV plus any applicable sales charges) of each class of shares is determined as of the close of the New York Stock Exchange (“NYSE”), generally 4:00 p.m. (Eastern Time), on each day the NYSE is open for business. NAV is computed by determining the aggregate market value of all assets of the Fund less its liabilities divided by the total number of the Fund’s shares outstanding ((assets-liabilities)/number of shares=NAV). The NYSE is closed on weekends and New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account the expenses and fees of the Fund, including investment advisory, administration, and distribution fees, which are accrued daily. The determination of NAV of the Fund for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, securities are valued each day at the last quoted sales price on each security’s principal exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, the mean between the current bid and ask prices on such exchange. Securities primarily traded in the National Association of Securities Dealers’ Automated Quotation System (“NASDAQ”) National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

If market quotations are not readily available, securities will be valued at their fair market value as determined using the “fair value” procedures approved by the Board. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has delegated execution of these procedures to a fair value committee composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) adviser or sub-adviser. The committee may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

The Fund may use independent pricing services to assist in calculating the value of the Fund’s securities. If events materially affecting the value of a security in the Fund’s portfolio occur before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the adviser or sub-adviser may need to price the security using the Fund’s fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund’s portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund’s NAV by short-term traders.

CREDIT UNIONS

The Fund is primarily offered to state and federally chartered banks and credit unions. Fund shares are designed to qualify as eligible investments for federally chartered credit unions pursuant to Sections 107(7), 107(8) and 107(15) of the Federal Credit Union Act, Part 703 of the NCUA Rules and Regulations and NCUA Letter Number 155. Shares of the Fund, however, may or may not qualify as eligible investments for particular state chartered credit unions. The Fund encourages each state chartered credit union to consult qualified legal counsel concerning whether the Fund is a permissible investment under applicable laws. The Fund intends to review changes in the applicable laws, rules and regulations governing eligible investments for federally chartered credit unions, and to take such action, if in the best interests of the Fund and shareholders, as may be necessary so that an investment in the Fund qualifies as an eligible investment under the Federal Credit Union Act and the regulations thereunder.

HOW TO PURCHASE SHARES

Purchasing Shares: You may purchase shares as described below.

Purchase by written request: You may purchase shares of the Fund by sending a completed application form to the following address:

via Regular Mail:
TransWestern Institutional
Short Duration Government Bond Fund
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, Nebraska 68154

or Overnight Mail:
TransWestern Institutional
Short Duration Government Bond Fund
c/o Gemini Fund Services, LLC
17605 Wright Street, Suite 2
Omaha, Nebraska 68130

Please call (855) 881-2380, or visit www.TransWesternCapital.com to obtain facsimile information. The Fund may not be available for purchase in all states.

Purchase through Brokers: You may invest in the Fund through brokers or agents. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

Purchase by Wire: If you wish to wire money to make an investment in the Fund, please call the Fund at (855) 881-2380 for wiring instructions and to notify the Fund that a wire transfer is coming. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the Application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institution, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to the Fund. The Fund will not accept payment in cash, cashier's checks or money orders. Also, to prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks or starter checks for the purchase of shares.

Note: Gemini Fund Services, LLC, the Fund's transfer agent, will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any check returned to the transfer agent for insufficient funds.

Minimum and Additional Investment Amounts: You can open an account with a minimum initial investment of \$2,000,000 in the Fund and make additional investments to the account at any time with at least \$500,000. There is no minimum investment requirement when you are buying shares by reinvesting dividends and distributions from the Fund. The Fund and the adviser reserve the right to waive any investment minimum.

When Order is Processed: All shares will be purchased at the NAV per share (plus applicable sales charges, if any) next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund before 4:00 p.m. (Eastern Time) will be processed on that same day. Requests received after 4:00 p.m. will be processed on the next business day.

Good Order: When making a purchase request, make sure your request is in good order. "Good order" means your purchase request includes:

- the name of the Fund,
- the dollar amount of shares to be purchased,
- a complete purchase application or investment stub, and
- a wire to the "TransWestern Institutional Short Duration Government Bond Fund."

HOW TO REDEEM SHARES

Redeeming Shares: The Fund typically expects that it will take up to one business day following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer. The Fund typically expects to pay redemptions from cash, cash equivalents, proceeds from the sale of fund shares, any lines of credit, and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions. All shares are redeemed at the NAV per share next determined after the Fund receives your request. You may redeem shares in several ways described below.

Redemptions through written request: You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

via Regular Mail:
**TransWestern Institutional Short Duration
Government Bond Fund**
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, Nebraska 68154

or Overnight Mail:
**TransWestern Institutional Short Duration
Government Bond Fund**
c/o Gemini Fund Services, LLC
17605 Wright Street, Suite 2
Omaha, Nebraska 68130

Please call (855) 881-2380 or visit www.TransWesternCapital.com to obtain facsimile information.

Redemptions by Telephone: The telephone redemption privilege is automatically available to all new accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account.

The proceeds will be wired directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call (855) 881-2380.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Fund's transfer agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may impose a fee for the incoming wire.

When Redemptions are Sent: Once the Fund receives your redemption request in "good order" as described below, it will make payment by wire transfer on the next determined NAV following your redemption request.

Good Order: Your redemption request will be processed if it is in "good order." To be in "good order," the following conditions must be satisfied:

- The request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- the request must identify your account number;
- the request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- if you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$50,000 for any investor that is not a regulated, U.S. based depository institution, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund,
- you request that a redemption be mailed to an address other than that on record with the Fund,
- the proceeds of a requested redemption exceed \$50,000 for any investor that is not a regulated, U.S. based depository institution,
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record, or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. The Fund reserves the right to waive any medallion signature guarantee requirement. *A notary public cannot guarantee signatures.*

Low Balances: If at any time your account balance in the Fund falls below \$2,000,000, the Fund may notify you that, unless the account is brought up to at least \$2,000,000 within 60 days of the notice; your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a wire to the bank of record. Your account will not be closed if the account balance drops below \$2,000,000 due to a decline in NAV. The Fund will not charge any redemption fee on involuntary redemptions.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund may assess a redemption fee of 0.25% of the total redemption amount if shareholders sell their shares after holding them for less than 30 days. Additionally, the Fund currently uses several other methods to reduce the risk of market timing. These methods include:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's "Market Timing Trading Policy,"
- Rejecting or limiting specific purchase requests,
- Rejecting purchase requests from certain investors, and
- Assessing a redemption fee for short-term trading.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

Based on the frequency of redemptions in your account, the adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to reject or limit the amount, number, frequency or method for requesting future purchases or exchanges into the Fund.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund, nor the adviser, or subadviser will, be liable for any losses resulting from rejected purchase orders. The adviser may also bar an investor who has violated these policies (and the investor's financial advisor) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors may use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Any sale or exchange of the Fund's shares may generate tax liability (unless you are a tax-exempt investor). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income monthly and net capital gains annually in December. Both distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions.

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisors to determine the tax consequences of owning the Fund's shares.

DISTRIBUTION OF SHARES

Distribution Fees: The Trust, with respect to the Fund, has adopted the Trust's Master Distribution and Shareholder Servicing Plan ("12b-1 Plan" or "Plan"), pursuant to Rule 12b-1 of the 1940 Act which allows the Fund to pay the Fund's adviser an annual fee for distribution and shareholder servicing expenses of up to 0.10% of the Fund's average daily net assets.

The Fund's adviser and other entities are paid pursuant to the Plan for services provided and the expenses borne by the adviser and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund's shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the adviser or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

You should be aware that if you hold your shares for a substantial period of time, you may indirectly pay more than the economic equivalent of the maximum front-end sales charge allowed by FINRA due to the recurring nature of distribution (12b-1) fees.

Additional Compensation to Financial Intermediaries: The Fund's adviser and its affiliates may each, at its own expense and out of its own legitimate profits, provide additional cash payments to financial intermediaries who sell shares of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The Fund's adviser may, from time to time, provide promotional incentives, including reallowance and/or payment of up to the entire sales charge, to certain investment firms. Such incentives may, at the adviser's discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional commissions.

Householding: To reduce expenses, the Fund mails only one copy of the Prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at (855) 881-2380 on days when the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information for the Fund has been derived from the financial statements audited by the Fund's prior Independent Registered Public Accounting Firm, Cohen & Company, Ltd, whose report, along with the Fund's financial statements, are included in the Fund's December 31, 2017 annual report, which is available upon request.

Per Share Data and Ratios for a Share of Beneficial Interest Outstanding Throughout Each Period

	Year Ended December 31, 2017	Year Ended December 31, 2016	Year Ended December 31, 2015	Year Ended December 31, 2014	Year Ended December 31, 2013
Net Asset Value, Beginning of Year	\$ 9.78	\$ 9.85	\$ 9.98	\$ 9.89	\$ 10.15
Income (loss) from investment operations:					
Net investment income ⁽¹⁾	0.11	0.10	0.11	0.12	0.08
Net realized and unrealized gain (loss) on investments	0.02	0.01	(0.07)	0.16	(0.17)
Total from investment operations	0.13	0.11	0.04	0.28	(0.09)
Less distributions from:					
Net investment income	(0.20)	(0.18)	(0.17)	(0.19)	(0.17)
Return of capital	—	—	—	(0.00) ⁽²⁾	(0.00) ⁽²⁾
Total from distributions	(0.20)	(0.18)	(0.17)	(0.19)	(0.17)
Net Asset Value, End of Year	\$ 9.71	\$ 9.78	\$ 9.85	\$ 9.98	\$ 9.89
Total return ⁽³⁾	1.31%	1.06%	0.38%	2.80%	(0.90)%
Net assets, end of period (000s)	\$ 270,353	\$ 326,889	\$ 361,006	\$ 358,794	\$ 370,832
Ratio of gross expenses to average net assets	0.69%	0.67%	0.67%	0.70%	0.67%
Ratio of net expenses to average net assets	0.65%	0.65%	0.65%	0.65%	0.65%
Ratio of net investment income to average net assets	1.09%	1.02%	1.06%	1.23%	0.78%
Portfolio Turnover Rate	133% ⁽⁴⁾	108% ⁽⁴⁾	27% ⁽⁴⁾	25% ⁽⁴⁾	32%

(1) Per share amounts calculated using the average share method, which appropriately presents the per share data for the period.

(2) Represents less than \$0.01 per share.

(3) Total returns shown are historical in nature and assume changes in share price, reinvestment of dividends, and capital gain distributions, if any, and exclude the effect of applicable sales loads. Had the Advisor not waived a portion of its fees, total returns would have been lower.

(4) The portfolio turnover rate excludes dollar roll transactions for the year ended December 31, 2017, the year ended December 31, 2016, the year ended December 31, 2015 and the year ended December 31, 2014. If these were included in the calculation the turnover percentage would be 160%, 134%, 60%, and 54%, respectively.

PRIVACY NOTICE

Rev. February 2014

FACTS

WHAT DOES NORTHERN LIGHTS FUND TRUST DO WITH YOUR PERSONAL INFORMATION?

Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some, but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depends on the product or service that you have with us. This information can include:

- Social Security number and wire transfer instructions
- account transactions and transaction history
- investment experience and purchase history

When you are *no longer* our customer, we continue to share your information as described in this notice.

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Northern Lights Fund Trust chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information:	Does Northern Lights Fund Trust share information?	Can you limit this sharing?
For our everyday business purposes - such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus.	YES	NO
For our marketing purposes - to offer our products and services to you.	NO	We don't share
For joint marketing with other financial companies.	NO	We don't share
For our affiliates' everyday business purposes - information about your transactions and records.	NO	We don't share
For our affiliates' everyday business purposes - information about your credit worthiness.	NO	We don't share
For nonaffiliates to market to you	NO	We don't share
