- ✓ Next day liquidity
- ✓ Limited interest rate risk
- ✓ Daily pricing; NASDAQ ticker TWSGX
- ✓ Fund structured to receive 20% risk-weighting

“Mutual Funds provide financial institutions an opportunity to invest in professionally managed, diversified portfolios. Most financial institutions do not have the economies of scale (due to the smaller asset bases and higher cost structures of most financial institutions) necessary to carry out a similar investment strategy internally. Mutual fund shares generally provide acceptable liquidity.”
